Friday 09 October 2020

Afternoon (Time: 1 hour 30 minutes)

Paper Reference **WFM02/01**

Mathematics

International Advanced Subsidiary/Advanced Level
Further Pure Mathematics F2

You must have:

Mathematical Formulae and Statistical Tables (Blue), calculator

Total Marks

Candidates may use any calculator permitted by Pearson regulations. Calculators must not have the facility for symbolic algebra manipulation, differentiation and integration, or have retrievable mathematical formulae stored in them.

Instructions

- Use **black** ink or ball-point pen.
- If pencil is used for diagrams/sketches/graphs it must be dark (HB or B).
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions and ensure that your answers to parts of questions are clearly labelled.
- Answer the questions in the spaces provided
– *there may be more space than you need.*
- You should show sufficient working to make your methods clear.
Answers without working may not gain full credit.
- Inexact answers should be given to three significant figures unless otherwise stated.

Information

- A booklet 'Mathematical Formulae and Statistical Tables' is provided.
- There are 8 questions in this question paper. The total mark for this paper is 75.
- The marks for each question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.
- If you change your mind about an answer, cross it out and put your new answer and any working underneath.

Question 1 continued

Lined area for writing the answer to Question 1.

(Total 7 marks)

Q1

(2)

$$\sum_{r=2}^n \frac{3r+1}{r(r-1)(r+1)} \quad n \geq 2$$
$$\frac{an^2 + bn + c}{2n(n+1)}$$

(5)

$$\sum_{r=1}^{20} \frac{3r+1}{r(r-1)(r+1)}$$

Question 4 continued

Lined area for writing the answer to Question 4 continued.

(Total 8 marks)

Q4

5. The transformation T from the z -plane to the w -plane is given by

$$w = \frac{z - 3i}{z + 2i} \quad z \neq -2i$$

The circle with equation $|z| = 1$ in the z -plane is mapped by T onto the circle C in the w -plane.

Determine

- (i) the centre of C ,
- (ii) the radius of C .

(Total 8 marks)

Q6

7.

Figure 1

The curve C , shown in Figure 1, has polar equation

$$r = 2a(1 + \cos \theta) \quad 0 \leq \theta \leq \pi$$

where a is a positive constant.

The tangent to C at the point A is parallel to the initial line.

(a) Determine the polar coordinates of A .

(6)

The point B on the curve has polar coordinates $\left(a(2 + \sqrt{3}), \frac{\pi}{6}\right)$

The finite region R , shown shaded in Figure 1, is bounded by the curve C and the line AB .

(b) Use calculus to determine the exact area of the shaded region R .

Give your answer in the form

$$\frac{a^2}{4}(d\pi - e + f\sqrt{3})$$

where d , e and f are integers.
